

Requirements for a Document of recovery from covid19

Must include all 6 parts

Proof of Testing that documents COVID-19 Infection

□ **1. TYPE OF TEST: The test is a viral test.** The following types of viral COVID-19 tests can be used: **Nucleic acid amplification tests (NAAT)** In addition to NAAT, phrases indicating a NAAT§ could include, but are not limited to:

- Reverse transcription polymerase chain reaction (RT-PCR)
- Isothermal amplification including:
 - Nicking endonuclease amplification reaction (NEAR) ○ Transcription mediated amplification (TMA)
 - Loop-mediated isothermal amplification (LAMP)
 - Helicase-dependent amplification (HDA)

 - Clustered regularly interspaced short palindromic repeats (CRISPR)

 - Strand displacement amplification (SDA)

Antigen tests Phrases indicating an antigen test could include, but are not limited to:

- Rapid antigen test
- Viral antigen test
- Also, could be noted as Antigen Chromatographic Digital Immunoassay¶, Antigen Chemiluminescence Immunoassay¶, or Antigen Lateral Flow Fluorescence

Note: Antibody or serology tests# are different and NOT allowed.

□ **2. WHERE TEST WAS RUN: The test must include where the test was performed.**

Include information such as the name and contact information for the laboratory or healthcare personnel who performed the test.

□ **3. TIMING: The test must show a specimen collection date must be after November 1, 2021**

□ **4. IDENTIFICATION: The test must include information that identifies the person.** Must have person's name **and** at least one additional identifier.

- Additional identifiers could include but are not limited to date of birth, age, and passport number.

5. POSITIVE: The test result must be positive. Results marked “invalid” are not accepted. Phrases describing a positive test include, but are not limited to:

- POSITIVE
- POSITIVE-SARS-CoV-2 RNA DETECTED
- SARS-CoV-2 ANTIGEN DETECTED
- COVID-19 DETECTED • REACTIVE

Letter of recovery from Covid-19

6. SIGNED LETTER: Must also have a signed letter stating the passenger is cleared for travel. The letter:

- Must be from a licensed healthcare provider or a public health official
- Must be signed and on official letterhead that shows the name, address, and phone number of the healthcare provider or public health official
- Does not need to specify that it is for travel—a letter that clears the person to end isolation (e.g., to return to work or school) can be used
