

Resonant Water products are based on health indications coming out of 40+ years research performed by Dr. Bill Bengston, one of RIC 4 life's founders. Research shows that water treated with the Bengston Energy Healing Method™ has cured cancer in mice. Anecdotal reports indicated that treated water can also be used effectively with conditions such as colitis, gastro-enteritis, skin conditions and others. Using this research as the foundation, they created Resonant Water. A formal human social experiment with Resonant Water was held in January and February of 2020 in the U.S. with positive indications. A second social experiment was completed in The Netherlands in December of 2020, again showing positive indications.
